

I AM THE NCR SelfServ™ 75

Bill Payment Kiosk

The next generation payment kiosk

The NCR SelfServ 75 is NCR's purpose-built kiosk specifically designed for today's demanding retail environments. Leveraging the NCR SelfServ 75, telecom storefront providers can implement bill payment and guided selling applications to improve operational efficiency and customer service to drive greater revenue and profitability.

Enhanced customer service

Research shows that consumers choose self-service because it is faster, more convenient and offers greater control over the shopping experience. Consumers trust kiosks, like the NCR SelfServ 75, for its ability to offer a fast and convenient way to conduct transactions without assistance.

Improve store operations

The NCR SelfServ 75 is designed to allow consumers to conduct simple transactions quickly and easily, enabling store associates to focus on supporting customers with more complex transactions. Telecom storefront customers who deploy NCR kiosks can achieve staffing efficiencies of up to 1.5 FTEs. Kiosks can also provide faster payment processing as well as improved security and fraud detection through counterfeit note detection and a reduction in transaction errors.

Boost store revenue

The NCR SelfServ 75 is a flexible and cost-effective platform designed to host self-service applications that support repetitive functions such as bill payment and customer service type functions. NCR customers that have installed NCR kiosks, like the NCR SelfServ 75, have increased store revenue as much as 5% by allowing the redeployment of store personnel to focus on higher value transactions and customer service.

Why NCR?

NCR Corporation (NYSE: NCR) is the global leader in consumer transaction technologies, turning everyday interactions with businesses into exceptional experiences. With its software, hardware, and portfolio of services, NCR enables more than 485 million transactions daily across retail, financial, travel, hospitality, telecom and technology, and small business.
